

Vasilis Roumeliotis

AI Software Engineer

Results-driven **AI Software Engineer** with 4+ years architecting and shipping **AI-powered products, multi-agent systems, and full-stack applications**. Pioneered compound engineering workflows with 15+ specialized AI agents. Ships production systems across web (Next.js/React/Supabase), mobile (SwiftUI), and enterprise (OutSystems/Workato). Proven track record delivering for **Fortune 500 pharmaceutical, major European logistics, and industrial HVAC** enterprises.

WORK EXPERIENCE

AI Software Engineer

Business Automatica GmbH

01/2022 – Present Athens, Greece

AI & Multi-Agent Systems

- Architected a **9-agent business validation platform** using Claude Agent SDK + FastAPI, orchestrating parallel research across market, competitor, financial, and risk domains
- Built an adaptive pricing/rules engine with **734+ automated tests** and prompt caching achieving **90% cost reduction**
- Developed an **autonomous idea-to-production pipeline** from concept through validation, specification, and build with minimal human intervention
- Built **MCP servers** in TypeScript, Python, and Bash for AI tool integration and legacy system migration

Enterprise Applications

- Designed and shipped a **tariff career progression system** for a Fortune 500 pharmaceutical company – 13 pay grades, 4 regions, 21-state workflow, 416+ automated tests
- Optimized a **major European rail logistics** company's track & trace system, reducing page load from **30-60s to sub-second** via SQL query optimization
- Built an **offline-first PWA** maintenance report system for an **industrial HVAC** company – 5 document types, tablet-first, IndexedDB sync
- Built **pdf2zugferd**, an e-invoicing platform converting PDFs to **ZUGFeRD/XRechnung v3** compliant electronic invoices – PDF/A-3 embedding, bilingual DE/EN, Zod validation
- Architected, developed and deployed a production-grade **AI-powered CRM**

Developer Tooling & Infrastructure

- Created **15+ AI development skills, hooks, and agents** establishing a compound engineering workflow (plan/work/review/compound) used across all company projects
- Built a **Slack-Claude bridge** for bidirectional team AI interaction via Socket Mode with session discovery and management
- Deployed production systems on **AWS ECS/Fargate**, Vercel, and Supabase with Docker containerization and CI/CD pipelines

SIDE PROJECTS

ParkSpot – Peer-to-Peer Parking Marketplace

Full-stack marketplace with Next.js web app + SwiftUI iOS app, Stripe payments, Leaflet maps, and Supabase Auth with RLS

Arc – iOS/watchOS Workout Timer

Offline-first timer with voice commands (SFSpeechRecognizer), background audio, WatchConnectivity sync, and crash recovery

Athens Boxing Club – Marketing Site

Next.js 16 site with programmatic SEO (12 playbook types), bilingual EN/EL, Supabase backend

Deep Research Platform – AI Research Assistant

Recursive SERP analysis with Firecrawl, SSE streaming, session management, and multi-mode business analysis

TECHNICAL SKILLS

AI & Agent Systems

Claude Agent SDK, MCP Servers, Multi-Agent Orchestration, Prompt Engineering, SSE Streaming

Web Development

Next.js 16 (App Router), React 19, TypeScript, Tailwind CSS v4, shadcn/ui, Bun

Cloud & DevOps

AWS (ECS/Fargate, RDS, ECR, CloudWatch, IAM), Docker, Vercel, CI/CD

Backend & Databases

FastAPI, Supabase (Postgres, Auth, RLS, Edge Functions), PostgreSQL

Mobile

SwiftUI, SwiftData, WatchConnectivity, AVAudioSession, SFSpeechRecognizer

SDK & Smart Contracts

Ruby (SDK Development), Solidity, Python, Brownie

Low-Code Platforms

OutSystems 11 & ODC, Workato, Oracle Apex

EDUCATION

Electrical & Computer Engineering

Democritus University of Thrace

09/2012 – 10/2021 | Xanthi, Greece

Thesis: Charged Particles' Motion Simulation in Jupiter's Magnetosphere using MPI **(10/10)**
Fortran95, Python, Linux, MPI+OpenMP, HDF5

LANGUAGES

Greek <i>Native</i>	English – C2 <i>Full Professional</i>
German – B2 <i>Working Proficiency</i>	French – A1 <i>Elementary</i>

SKILLS & COMPETENCIES

Communicative	Team Player	Methodical
Goal Oriented	Time Management	Resiliency
Persistence	Creativity	Problem Solving

ADDITIONAL ACTIVITIES

Basketball	Swimming	Boxing	Formula 1
Reading (George Orwell)
